Its primary purpose is to clarify and distinguish ethical and approved professional practices from those, which are detrimental, and to promote the principles of fair play in football. Its secondary purpose is to emphasize the purpose and value of football, and to stress proper function of all those involved in relation to schools, public and the players. The ultimate success of the principles and standards of the Code depends upon the football coaches, administrators, and players of the game. Individuals

should never place the value of a win above that of instilling the highest desirable ideals and character traits in the players. The safety and welfare of the players should always be uppermost in their minds, and they must never be sacrificed for any personal prestige or selfish glory.

**15.02** In teaching the game of football, coaches must realize that there are certain rules designed to protect the player and provide common standards for determining a winner and loser. Any attempts to beat these rules, or take unfair advantage of an opponent, or to teach deliberate unsportsmanlike conduct have no place in the game of football, nor have any coaches, guilty of such teaching, the right to call themselves coaches.

Representation of OFFL's committees and member organization administrations is of paramount importance to reflect the individuals participating in tackle football programs in Ontario.

**16.02** Access to all programs and committees are to be provided on a fair and equitable basis to all individuals wishing to volunteer their time and effort. Approval to participate in any program or committee will be based on the individual's ability to contribute to the program or committee and not on his/her gender, ethnicity, color, religion, or physical ability. OFL is totally committed to a complete range of opportunities and choices to achieve personal, social and economic benefits from all our programs.

#### **ARTICLE 17.0 – DRUG FREE STATEMENT**

**17.01** It is the position of OFFL to oppose the use of Banned and Restricted Doping Classes and Methods and to be proactive in education to discourage their use. This position is since banned substances, which artificially enhance performance in training and competition, are harmful to health, ethically wrong, and ultimately a threat to amateur sport today.

**17.02** OFFL is unequivocally opposed to the use by amateur football athletes of any Banned and Restricted Doping Classes and Methods in contravention to the rules and is equally opposed to any encouragement of the usage of such substances by individuals in positions of leadership, such as coaches, medical practitioners, sports scientists, the athletes themselves, or by any other members of the OFFL.
