- a) The competition committee shall be formed at the AGM each year and have a one-year term.
- b) The committee shall be chaired by one member of the OFFL Executive Committee.

- d) Review all Champ Day applications and making a recommendation to the OFFL Executive
- e) Any other administrative tasks as requested by the OFFL Executive Committee or Member Clubs

SECTION 3.0 - RESIDENTIAL GUIDELINES

3.01 All Member Clubs must abide by and act consistently with a player's primary residency with respect to player registration as follows:

- a) To register with an association, all players should be encouraged to play in the centre in which they hold official residence unless they live in an area deemed open or receive a release from the league.
- b) Subject to Section 3.01, once players have registered with their centre they should not play for any other centre in that year, unless the team in their original centre is disbanded or a familial move necessitates. It is expected that centres speak to each other in these situations.
- c) In all cases where a centre is approached by a player or his/her parents or guardians, who resides in another center's boundaries, said centre provide the player with the contact information for the centre in which they reside. That centre should advise the parent(s) there is a centre closer to where they reside. If the parent(s) elect to another centre (outside of their area) the player will be permitted to play outside their area.
- d) If the player / parents or guardian choose to register with another centre outside the territory in which they reside, necessitating a move away from their home centre, the centre the player is going to must reach out to the player's home centre for a conversation. The goal is to have as many players involved in football as possible and all centres should support players participating where they would like. they must receive a release from the league. The player / parent(s) must request a release in writing. To align with FO policy the league will grant a release unless any of the following apply:
 - i) The player owes fees to the Member Club they no longer wish to play for
 - ii) The player has equipment that has not been returned to a Member Club they no longer wish to play for
 - iii) The player was actively recruited away from the club (see recruiting policy below)
 - iv) As a result of the player leaving the departed Member club can no longer field a team in that age division (minimum roster numbers)
- e) Subject to Section 3.01, a player who was registered and played with a OFFL association in the prior OFFL season, moves residence from that OFFL area to the territory of another OFFL Member Club shall, within the first year, have the right to choose either their former association or their new home association to register with, without the need of a release from his/her home association. It is understood that centres will speak to each other in these cases. However, in the following year, they must play where they live and shall not play for any other territory unless by written release.
- f) Exceptions:
 - i. "Sibling Rule" – Families are encouraged to play together, even if those players are playing in centres that are outside their home area. The goal is to keep families playing together. If a family elects to have one player in their home area but another in a Member Club outside their area, it is understood this is the parents' decision. Centres are

expected to communicate with each other.

ii. Players who reside in a centre which does not field a team in their age group may play for any centre. Once the centre, in which said player resides, fields a team in said player's age group, said player has the option to continue to play in the centre in which he/she was registered. Should the player decide, at any time, to return to the centre in which they live, a written release shall be granted by the centre where said player was registered.

3.02 Open territories are all other areas not covered by an Association registered with OFFL (listed in section 3.02 above). In the event an association does not field a team in a division that association's territory is open for the current season only.

3.03 It is the objective of OFFL to provide football to as many players and centres as possible and accordingly will encourage and help any new centres that may be interested in forming teams. If an association registers enough players from a geographical "open" territory to form a team, the association may apply to OFFL to have the territory protected.

3.04 All new Member Clubs that enter a team into OFFL will be given protected geographical areas. Any players who were registered in an "open" area that now includes the new Member Club's protected area may register with the new association or register with the association with which he/she played in the immediate preceding second ("grandfathering").

3.05 It is a breach of the FO code of ethics to recruit a player enrolled in another program, or a prospective athlete who has avowed his/her intention to enroll in another program. The OFFL also considers recruiting players from within another Member Club's territorial boundary as a violation. Any violation requires documented evidence be submitted to the league.

For any occurrence that the league deems in violation of the recruiting policy the following penalties shall apply:

Association violations

1st offence - \$500 fine to the Member Club payable immediately to the OFFL and the player must remain that season with their home centre

In the event a medical certificate is requested, a player may not register with OFFL, or if registered, continue to practice or play for a OFFL Member Club unless and until the requested certificate has been received by OFFL or the Member Club confirming there is no medical reason preventing the player from participating in the game of tackle football. A copy of all such certificates shall be given to the OFFL Registrar for filing as soon as possible after having been received.

5.03 The ages and divisions of play approved by the OFFL are:

5.09 Players may play up a division if he/she is within one year of the age requirement of that division with written permission from a parent or guardian. These players must be in their last year of eligibility for their own division (from age standpoint) and under no circumstance may a player play down a division from the one for which he/she is registered. Once a player has dressed for or participated in any way in 3 or more games in the upper division, the player must remain in the upper division for the balance of the season including playoffs. Such action must also be approved by Football Ontario

The second teams will then scrimmage at the same 35 yard line and proceed as above. The Scheduler or League President will then confirm this information with the visiting team's Association President.
